**Sisters and brothers: migrants and refugees,  
together we'll light up the peripheries  
Hand in hand let our voices and dreams soar  
Indifference and exclusion will be no more.**

**Together we'll embark on a journey  
Treading a path to God's holy city  
Together we'll build a hope-filled future  
Where God's love, joy and peace reign and prosper.  
Together on a journey.**

**Sisters and brothers: migrants and refugees,  
God's love will dispel your fears and miseries  
In welcoming each and every one  
We welcome in our midst, Christ who makes us one.**

**Together on a journey**

**Together we'll embark on a journey  
Treading a path to God's holy city  
Together we'll build a hope-filled future  
Where God's love, joy and peace reign and prosper  
Together on a journey**

**Sisters and brothers: migrants and refugees: on a journey.**
